Sumar

185+. This is the number of people dedicated to winning people`s heart and minds. Our MISSION is to discover new ways to improve and extend people's lives. We use science-based innovation to address some of society's most exciting healthcare issues. We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible. The MSL is responsible for scientifically engaging, collaborating and aligning with a broad range of external partners to co-create value, address identified patient needs and ultimately change the practice of medicine for better patient access and outcomes. They use the right evidence at the right time during their engagements, and identify insights and opportunities that impact and inform the Integrated Product Strategy (IPS), Integrated Evidence Generation Plans, launch excellence roadmap, Patient Journey and medical strategies. MSLs also contribute to innovative partnerships and implement relevant disease area strategies. They will act as a strategic scientific partner, and collaborate with other Field matrix colleagues (e.g. Value/Market Access, HEOR, clinical research colleagues) to ensure Novartis can support healthcare systems strengthening & improve patient access and outcomes.

About the Role

Your key responsibilities:

Your responsibilities include, but are not limited to:

- Ensure appropriate identification and mapping of external partners in the allocated therapeutic areas. Expand external partner engagement beyond Healthcare Professionals.
- Build personalized, flexible engagement strategies and plans, using multiple channels and tailored content to meet the changing needs.
- Collect, analyze and report medical insights from external partners.
- Support Novartis clinical development projects as guided by the local Clinical development team. Identify data gaps, and data generation opportunities (including RWE and implementation science, precision medicine).

Support disease awareness campaigns and communicate the right evidence to the right stakeholder to make informed decisions.

- Embrace omnichannel engagement and digital.
- Capture and leverage insights for an impactful contribution to Patient Journey mapping, launch excellence roadmap, coordinated evidence generation plans, integrated product strategy and subsequently the medical strategy.
- Back up Medical Advisor for medical trainings to other functions (Commercial, Clinical, Patient Access, etc.) during onboarding, cycle meetings, or other regular cross-functional meetings.
- Manage administrative responsibilities in a timely manner (customer relationship management tool, compliance training and other modules, expense reporting, etc.).

What you'll bring to the role:

- Education: MD, MSc, PhD, or PostDoc titles on Medical, Pharm, Biol. and other health/life sciences.
- Proficient Romanian and English, both written and spoken.
- At least 6 months working experience from a Healthcare institution, Local Health Authority, Healthcare NGO or Pharmaceutical industry (Medical role).
- Excellent communication skills.
- Stakeholder management.

Why Novartis?

766 million lives were touched by Novartis medicines in 2021, and while we're proud of this, we know there is so much more we could do to help improve and extend people's lives.

We believe new insights, perspectives and ground-breaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.

We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying!

Imagine what you could do here at Novartis!

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
